

CHARLES EWING.

MARCH 5, 1840.

Laid on the table.

Mr. CHITTENDEN, from the Committee on Invalid Pensions, made the following

REPORT :

*The Committee on Invalid Pensions, to whom was referred the petition of Charles Ewing, report :*

That the petitioner claims to have served in the war of the revolution in several Indian companies, and that he was wounded in such service.

He now asks a pension as an invalid, not as a revolutionary soldier. Governor Desha testifies to a tour of four months service, and that he was wounded by being thrown from his horse.

There is no proof, other than the oath of the petitioner, that he is now disabled in consequence of the injury which he claims to have received.

The committee, therefore, ask to be discharged from the further consideration of the petition.
